runs
Negative binomial likelihood
Latent pretraining, encoder full afterwards
Latent pretraining, encoder low lr afterwards
Latent term, weight 2
Latent term, weight 0.1
Latent term, weight 0.5
Latent pretraining, then forecast with the latent term
Weight 6 on the periods after a promotion
Peak weight, dollar weight and Tweedie power 1.1
Latent term with a spread penalty and discount
Latent pretraining, encoder frozen afterwards
Weight 3 on the periods after a promotion
Latent pretraining, then forecast with a totals term
